

# Invitation

## Mining webinar series

### Tailings management - Sustainable mining needs radical transformation

Tailings management in today's perspective is unable to sustain in the future. An effective end-of-the-mine strategy needs a vision that goes beyond environmentally safe practice. Join Metso Vice President, Rodrigo Gouveia, for a discussion surrounding tailings management.

### Combining legacy and expertise - New Metso mining crushing systems

Mining crushing and screening plants have their challenges. They require a lot of time and resources for feasibility studies, engineering and construction, which results in high costs. Join us as we introduce our Metso Mining Crushing Systems to the industry.

### Always connected - Remote monitoring, maintenance, and optimization

Mining continues to be more remote and complex than ever. However, this is no excuse for a lack of responsiveness. When things go wrong, the ramifications can add up quickly. Join us for a discussion about remote services and their role in equipment and process performance.

### Three ways to improve your screening process with media

What impact does your choice of screening media have on the screening process and what can you do to optimize the process? In this webinar, we explain the impact of screening media from different perspectives.

### Autonomous plant - Intelligent solutions for the future of minerals processing

What does future hold for minerals processing plant automation? What does a fully autonomous plant look like? Join Metso's Chief Digital Officer, Jani Puroanta, to hear his perspective on the phases that mining operators must pass through to reach a fully autonomous state.

During these unprecedented times, we know the importance of staying connected. Having easy access to insightful information and expert advice is key to be able to keep performing at your best. While we may not be able to come to visit you, we certainly want to stay in touch. That's the benefit at the heart of our new webinar series. Please join us by registering for one (or all) of the upcoming sessions. We hope to see you there!

If you are experiencing any technical issues or have questions regarding the topics, please contact us at [mining.webinars@metso.com](mailto:mining.webinars@metso.com).
